

gEEsEs kEEpin' wTR alive cHemicals- batch-48 (2-13-16)

gEEsEs kEEpin' wTR alive cHemicals batch-48 (2-13-16)

You do not have to wonder, but goin' back last millennium, in 1998 I had been on the road driving OTR i.e. part-time trucker, and getting fed-up w any changeover to LNG fuels. After 6 weeks on the road, the heavy weighty of 80,000 pounds load, I had to stop on US-85 northbound to exit Fort Lupton CO. Whereupon the gEEsEs had stepped around the barren gRasses and sought the So-Platte river across the 4-lanes dived-west bound! This was March, WTR. Elsewhere in Washington Park little-D: denver, I found the same was an alacrity that gRasses were watered, why not join-in. Soooo, much for studying the biological change, wheres changes had come home to roost w the chem-trails, too!

Soooo, now April 30th 2017, before I return to have yet another BCCV removed and double checked, I wonder whether the gEEsEs knew the fanatic-penataGooners were going to try to control "weather" via H.A.A.R.P. and inducement proviso'd by "**chemicalizing w strontium-90**"?

We yet need not be still regarding the needs for scientific-RepRoof. Okay, not yet!

Reminders:

+ click on iMaGe to enlarge; stamp black-X to exit back column of iMaGes.

+ If you wish to purchase any in my website, list: a) batch-#... b) image # & entitlement in an e-Mail to e-Address <apeco44raddison@gmail.com >

+ pRices vary according to one of two pRocesses availing. Sizes are more static, ONLY 2 per iMaGe.

If interested in comments they also contact me @ <

apeco44rraddison@gmail.com > utilizing batch-# and iMaGe no. as well as your e-Adresse`...I shall explain pricing w mating of two types, but yuou must first show what ones of your interests and the image has two 'determinant' sizes...

+ these iMaGeS aRe utilizing a smaller KB's downsizing due the fact that I had to purchase 3X what I wanted in the manner of software for downsizing, that oNLY werked "once"!

All purchases will be 5X the resolution-Factor seen low KB's here.
