## **introducing Batches & additions to bloGs already completed**

I now have “183 of 222: anti-nucleaRist bloGs” completed w numbering and adding to the program of nUkiEm0Le ... soooo that the balance w book-Volume’s wRiting litany remains a comparative space-Time– for the viewor/reader. As I shall post the first of 2014’s blogs, the dateline cuts-off @

Secondly, as demanding technique also helps keep my organizational patterning associated w the basic bazaar-Design, I have added many “iMaGe-batches” since 6-weeks ago. These are technical, and there is as yet–until the next web-code re-Developer, a way to maneuver when I add data to an already installed “batch” is not now adapted forensically. This is why I insert another “iNf0” as that updates those batch-pages.

The following BATChES have had additions, since aRchive chronology:

+ there are two, but I do recommend you review iMaGeS as all are for sale, altho the headings of “frontis” do not have any, therefore not yet available until I get beyond “batch-100” as I keep expanding from my resource “edits” completed folio’s ...

+ please just click on aRchives (this is any posting since about 8 hrs before midnite–trying to get clock to werk for MDT?) as that will be the same as RSS one ought do this for daily last posts...

+ the poems are now at #40, as I discern what next from 2013–15 to edit and then bring along w gap–posts yet due! Poem #40 is about a gal that I wanted to love when she was 19-20 w whom I got to know when she was thirteen, but who does need improvement on communicative-Skills...she came across from a nuDeLiEs website–nothing scant–but read w CARNAL in mind i.e. not carnal prejudice, not carnal sexuality, not any but carnal appreciation...

+ as my wRitings surrender the gReatest energy output (akin my Volumes–concurrently editing and adding updates) to three full-Volumes (hope that you do appreciate some accountment here) ...

+ lastly, please do place into a folder any iMaGe you may like-want-desire-laud as I am needing to move to get from complete ownership of my 95 years olde cabin on lot stuffed to the bRimming overload w aRtes mateRials...

+ please sign-up for the Socialist of Ecosocialism since 1968–what I accomplished at UC Berkeley has yet to posit w post-Articulate into stories and fBIS those I shall keep evaluating until you really want my “fBIS and intel-Gence” sToRiEs ...

+ lastly, please e-Mail to me any new e-Adresse’s (or that which is best correctly) to a text; and, you are allowed post to comments, as I do get lots of Russian/Cyrillic Cialis, Viagra, and Canada this pHaRma that I spam-out, but there will also be a “summary-Post” of comments specifically found associated w what you folks seem not to connote ...

Many thanks for this up-date, the wars are 38-years on-going,
