Not Getting Imperialist Views, Not watching foreign News

I've pulled my contract from self-Publishing agency because they impugned against me when they could have gone forward, and were egregious as well

my website has my poetry and I can edit then post and leave prescient, the whole content, alone, alongside my being single and having lot of werk to dole-out regarding my cold-water cabin, sCuLpTs and completion date-lines

the loss is too plentiful but no worry I can leave and get time w my el-dentist, and then have to locate a special re-DevelopeR for website, if there is justly that such a person exists

part of me yet wants an offspring chance but i get too many offers for cam-sutRa's video oRdeals w persons of vacuous

lacking background or understanding to socio-Polity and how that works w.o. bourgeoisie anti-Politics is wars exist, question-Mark

there are many reasons why women are considered not-so-smart, but not hygiene as that feminism is virtuous knowledge firsthand caring for femininity, yet I would like one thingy-Bop, that I have a shower each day after hours editing my writings, and hours editing my camera's visual functionalities

you, we live in an egregious-Empire, illegal-Wars are good for us, or naught

the plateau of des-Plaines maintains the scope of leaking roof assembles cold and I'd rather take a walk at nite since I have not hot-water, nor installed shower and the roof leaks cold-water too

I'd welcome a woman who knows that this man needs home care and she ought care for that ever-so-pleasant functionality of stay close to being, that of whom you are and that of the improvement you and our global-Village

may be that this one should just forget about publishing my written wirks, those merely absconded me-mind, since 1966 morosely and how then, about this, is this anti-Nuclearist justly, should i ask anyone reading this website,

to sign the petition to & for clean-ups, yes that is correct,

a petition of de-Contaminating all "nuclear-Molecular" molecules of immutable despicability worldwide and not propaganda-Haste makes smaller the portions of land to utilize and waters to drink, cool, bathe

maybe even forget the word and wordage of "peace is"...

The oNLY other person, may be of History and I can denote that as world tRaveloR and peace-Dilpomat of and in Ecology (from1974 thru 1983) while my participatory nature was nurturing the proponency of science in the fact of highly innocuous Plutocrats, like raw-Goon in 1979 asking for militancy by US-military Marco Polo finally comes to mindscape...
