hegemonyites, Conditionalism, and egRegionalism

Rubble, rubble, war, shoot-shoot, war blash, bomb explodes, tank sends its 120 mm bullet into concrete useful for insulation

of we-Humans in desert oriented middle-East, but war-war everywhere, and civilians caught in cross-fire purposefully by ISIL hired by US-admin's CIA orders? Rubble rubble everywhere

why is rubble good for children to live upon as schools did not close but got caught in cross-fire, children's blood as hospitals do not have doctor's but US-military bombs killed them and their hospitals now rubble, ruins, of rubble streets, and blood soaked concrete grey, rubble, how wonderful the myth of US-military IS NOT.

Rubble, rubble another mosque bombed by US-mediocrity, another school, another hospital, another mosque, another civilian wedding rubble w human-Blood soaking for assurances that civilians were involved by illegal-Invasions and interference

by a once-Waz republic, u.s.a. we-People too proletarian or justly Bourgeois now the evil-Empire. Rubble for the US-military

supporters of crimes against Humanity, the joe-Average Sunday meal of GMO's, foodstuffs fed by chem-tRails rubble for unions not striking against no water in Syria, in Libya, in Yugoslavia,

in Afghanistan, in Iraq, in Iran the oldest civilization does not
like ISIL hired by CIA that cause rubble, everywhere blood-soaked
rubble of civilians known as collateral-Damage, how much have the
chem-trailings program cost the u.s.a. taxpayers, the oligarch's
non-taxpayers?

graphic details delux can be seen any 24/7 daytime's reports from the middle-East on IDF's killings palestines-People w total
abandon, and illegality of "any forum on human-Rights"
the time has more than come to arrest those illegal-Oligarchs
more than have come to pay any ole taxes? how come the total-Impunity of sleaze? have them show us where the monies have been illegally spent and how the laws read that were broken!
the police-state, around these once-Waz democracy-states has got to give-up those "donated war-Materiels' armaments" to a tribunal that can and will run the enmity of anxiety egregious-state.

The radical-Right wants you? no. the fundamentalist radical-Right
has taken-over as leading fascist-coRpoRatist methodology, the supreme sleaze-Court's hardly chosen for fairness, how do we educate our communities w.o. coRpoRate fascist sleaze arrests?
When famine runs rampantly over-the-rubble -of-lacking-any-integrity
oligarchs, their sleaze ought be placing themselves into jails for heinousness against the US-constitution, disrespect or UN-lawful
or shall we do that for them? Do the illegal-Wars cause "famine"?

Does famine UN-justly happen from CO-2's molecules drizzling

on down from aero-jets US-penataGooons program, the UN-released
cost to tax-payers yet not discerned as a legal-Practice? Wars
and
famine and collateral-Damage and worldwide contaminations
goad along not-so-ever-Passively, are illegalities of UN-declared
wars, but chief shid-ski anarchist el pResidente's go on
that over like lead balloons of the tyranny they protected,
but the Daiichi's have not been filtered for pu-239 now
disseminating thru-out the west coastline of north-Americas.
why is anarchy good for them? Because once a plutocrat
always a sleaze! Sure.
